

The London World says: Prince Bismarck has sent a large photograph of himself to President Cleveland. It is framed in silver and bears the Prince's autograph. He is represented in a military uniform.

My dear Mr Randall,

I notice by the papers - a slip from one of which is here - to appended - that Prince Bismarck has sent his framed photograph to his Excellency the President. It may be that the President would like to make some response in kind for this courtesy.

The thought strikes me that if he had such a desire I could have struck for him a bronze medal of himself, - as we have the die and several copies of the medal here, - which he might have if he wished to send any in return,

or to dispose of as would be most agree-
able to him.

If you think well of this, you
may intimate it to his Excellency when
next you see him, and let me know his
wishes.

Very truly yours
Wm. M. Fox
